B.TECH AIDS- Sri Eshwar College of Engineering CGPA:8.14	2024-2028
HSC - Ponnu Matric Higher Secondary School 93.5%	2023-2024
SSLC - Brindavan Matric School 95.6%	2021-2022

INTERNSHIP

MERN-BETTER TOMORROW	2025
-----------------------------	-------------

PROJECT

AEGIS AI Privacy Shield	2025
--------------------------------	-------------

Chrome Extension | JavaScript | Chrome APIs | Docker | GitHub Actions

Developed a browser-based security extension that detects sensitive information in AI prompts and replaces it with secure placeholders before transmission, preventing accidental data leakage to cloud AI platforms.

Aircraft Predictive Maintenance and Engine Health Monitoring System	2026
--	-------------

Python | TensorFlow (LSTM) | FastAPI | React.js | Tailwind CSS | TensorFlow Lite | Pandas | NumPy

Designed and developed an AI-powered predictive maintenance platform using Python, TensorFlow (LSTM), FastAPI, React, and Tailwind CSS. Predicted aircraft engine Remaining Useful Life (RUL) from sensor data and delivered real-time maintenance insights through an interactive dashboard.

Plant Disease Detection Mobile	2025
---------------------------------------	-------------

Developed an ML-powered mobile app to detect plant diseases from leaf and fruit images, providing accurate diagnosis and treatment recommendations. Features include offline support, local language accessibility, and a farmer-friendly interface..

CERTIFICATIONS

Python Basis Hackerrank	2025
SQL Hackerrank	2025
C Program for Beginners Great learning	2025
Completion of C IIT BOMBAY	2025
Completion of C++ IIT BOMBAY	2025
Mastering Data Structures & algorithm using C and C++ Udemy	2025
Introduction to Generative AI IBM SkillBuild	2025

ACHIEVEMENTS

Secured Second place in Paper Presentation at Karpagam college of Engineering	2025
Shortlisted to Selfie Hackathon to Final Level (among 300+ teams)	2025
Shortlisted for India Innovates	2026
